DEPARTMENT OF COMMERCE BUREAU OF FISHERIES

Name of stream Saginaw CreekDate examined 7/14/37, 7/15/37, 7/16/37Location Saginaw Bay, southeast of mouth of Saginaw BayApproximate length 4 to 5 miles Width 10 to 65 ft. Depth 6 in. to 8 ft. at high waterCondition and stage (whether clear, high, low, etc.) Clear & highLakes, if any, size, character, and whether accessible from sea No lake accessible from seaSalmon run (heavy, light, average, etc.) LightDate and duration of run of each species
Chums 7/24/37 to 8/16/37
Pinks 8/12 to 8/16/37Estimated number of each kind of salmon on spawning beds, or in stream
Chums 11,340
Pinks 900

Former size of runs of each species and evidence of depletion, if any

Natural barriers and whether removable Mostly all natural barriersWhere markers are placed One marker placed northwest of the Saltery and the other southwest of the Saltery in Saginaw BayRemarks, sketches, etc. In my opinion Saginaw Bay should be closed next season to give fish a chance to accumulate again.(sgd.) H. W. Homeyer, Stream Watchman

(Name and title of employee making examination)

Send original to Washington office, one copy to Seattle office, and one copy to Juneau office.

Use reverse side if additional space is required, or explanatory sketches are made which can not go on this side.
